Sir:

Petition is hereby made to accept color photographs for Figures 6A and 6B in connection with the above-identified application. Three (3) sets of color photographs and one (1) set of black and white photographs of Figures 6A and 6B are submitted herein.

Applicants respectfully request that the color photographs of Figures 6A and 6B be accepted as drawings in this application. Color drawings are the only practical medium by which to disclose the biological effect of the subject matter of the patent. Figure 6A and 6B are stained cytology samples showing the cell distribution using the device and method of the present invention versus the conventional Pap smear. Such
